

BACHELOR BUSINESS MANAGEMENT

IN COOPERATION WITH BOKU UNIVERSITY

Why this study program?

Are you looking for a degree that leads to real employment?

The Bachelor in Business Management – FEA, developed in cooperation with **BOKU University**, combines theory with practice and prepares professionals who understand how a business truly operates. The program focuses on Agribusiness and Rural Tourism, two strategic and growing sectors that create jobs and promote sustainable development in Albania.

Students gain knowledge in: management, marketing, finance, entrepreneurship, as well as practical skills for managing modern businesses and value chains.

Less theory, more market exposure and opportunities.

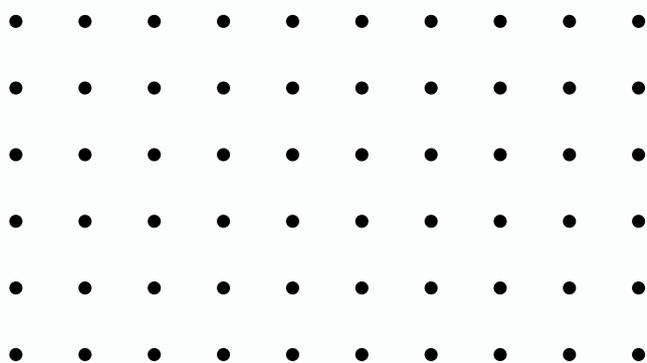

Build your future where real potential exists.

Program Description

The Bachelor in Business Management program prepares professionals capable of developing managerial competencies, leadership and interpersonal skills, as well as entrepreneurial competences in both the private and public sectors. The program promotes sustainable practices and technological innovation. The knowledge acquired prepares students to successfully operate across the entire production and marketing value chain, up to the final consumer.

**Internationally
recognized degree.**

Graduate Profile / Professional Profile

Graduates are prepared to work as:

- **Managers** in modern businesses and agribusinesses, focused on sustainable performance and economic development.
- **Business consultants** capable of operational management, development project design, and securing financial support in cooperation with public and private institutions.
- **Managers in tourism, agritourism, and rural tourism businesses** with skills in marketing, sales strategies, and community engagement.
- **Consultants/experts in institutions**, organizations, and NGOs related to tourism and rural development.

Jonida Gjoni

Finance Director, MEGATEK

“Economic and financial knowledge guides me toward making smart decisions. My studies and practical experience have shaped me to be disciplined, prepared for challenges, and focused on achieving my professional goals.”

Vjola Elezi

IPA/IPARD Specialist –
Ministry of Finance

“Knowledge of agricultural policies, rural development, and EU funding forms the foundation of my work. With analytical and managerial skills, I contribute to managing IPA/IPARD programs, ensuring sustainable use of funds according to European standards.”

Kristi Marku

Flight Attendant

“Studies in Rural Tourism Management have shaped a comprehensive perspective on tourism as a tool for development and community support. With 7 years of experience and a strong academic foundation, I combine theory with practice in management, marketing, and destination development.”

Anxhelo Malushi

Youth Sector Specialist –
Municipality of Tirana

“For five years I have been engaged in tourism and youth sectors, contributing to local development and youth inclusion. My studies strengthened my commitment to sustainable tourism and community empowerment.”

Key Competencies Acquired

Upon completion of the program, students gain competencies in:

- **Management and Leadership** – Efficient management of agricultural businesses, agribusinesses, and rural tourism units; teamwork and professional communication.
- **Marketing and Sales** – Designing promotion strategies for food products and tourism services.
- **Analysis and Decision-Making – Data-driven** decisions based on financial, technical, and organizational information.
- **Design and Management of Tourism and Agritourism Businesses**
